assign

Assume all individuals
can be assigned to a
house in the shelter

In the general case, I use 'Shelters
(Housing)' as a broad term to represent all
housing units.

However, for a more detailed analysis, we
can differentiate between various housing
types, as they correspond to different
categories of individuals

register

Individuals can register 0 or one programs,
cause:

Only large family size individuals can qualify for
the govement assistant program;

Small size family or individual cannot qualify for
assistance program;

One program can be registered by many
individuals, assume there is no program vacant.
